Cold Rice LLC

Maintenance Package Plans

Cold Rice offers three main tiers of website maintenance plans. Each tier includes two categories of work:

→ a regular, reoccuring set of updates made on a schedule
→ an allotment of hours for work outside of general maintenance (adding site features or functionality). If the work requested overflows the alloted hours or is an entirely separate project, a separate agreement will be made.

Regular maintenance includes:

→ Software updates (plugins, Wordpress, Shopify apps, etc.)
→ General bug fixes
→ SSL cert renewals
→ Security updates
→ Other troubleshooting
→ Creating and managing site backups

Anything outside of regular maintenance is applied to the alloted discounted hours. This could include things such as:

→ Adding new pages/functionality
→ Design updates
→ Data migration/content updates

Costs are calculated with a rate of $125/hr. Updates outside of the included allotted hours will be billed at $150/hr. Any unused alloted hours will carry over to the next year, but cannot be carried over more than one year. e.g. Hours from 2018 could carry over to 2019, but not to 2020.

Why have regular maintenance?

Keeping your website up to date with the latest softwares and practices will help keep it safe and secure.

Apart from security, making sure there are no hidden bugs on a site is extremely important. This ensures that users are getting the best possible user experience.

Tiers

Tier 1

→ Maintenance done every month (48hrs)

→ Annual cost of $11,000

→ Includes 40 hrs of work outside of maintenance

Tier 2

→ Maintenance done every 2 months (24hrs)

→ Annual cost of $5,500

→ Includes 20 hrs of work outside of maintenance

Tier 3

→ Maintenance done every 4 months (12hrs)

→ Annual cost of $2500

→ Includes 8 hrs of work outside of maintenance

Custom plans

If these pricing plans dont work for your specific situation, custom plans can also be made. If you would like to just pay for maintenance, but not the allotted hours, or need a different combination of hours and maintenance in a different timeline, this can be arranged.

Thank you.
